

flowerz™ **Karma™**
find your calm

PRODUCT CATALOGUE

2022.02

flowerz was formed as a way to connect communities to responsibly crafted cannabis products. The hemp/CBD market is incredibly new and there is significant confusion present throughout the industry, flowerz is here to provide some much-needed clarity. We work with organic farms, sustainable producers, and cGMP manufacturers in order to provide the best possible products while setting the standard of quality that all products should adhere to.
